The advantage we offer to the ladies of Maysville in showing our wash goods so early this year seems to have been well appreciated, and not only by the buyers, but by the dressmakers, too. Two of the many advantages of buying at our early spring opening are the choice of styles and the ability of getting the goods made up now, for six weeks hence the dressmakers are too busy to take on much work.

# DON'T LOSE SIGHT OF THIS OPPORTUNITY!

We are showing a magnificent line of White Goods, including every known fabric.

LET there be no procrastination when the Jary in the Jim Tillman case passes the rope to the Sheriff.—Lexing-

But has the Editor of The Morning Democrat passed upon the case? Maybe TILLMAN belongs to the Goebel class of murderers.

The Treasurer of a New York Theater was poisoned by microbes from money, and lost an eye as the result. The Treasurer of The LEDGER is still taking all sorts of risks,mainly that of losing both eyes in looking for money.

THERE are no flies on the Tennessee Legislature. It has just passed one of those foolish anti-Kissing bills-making it applicable only to the great statesman who proposed it! Other Legislatures where these silly measures have been offered might with profit follow suit.

A REAL old-fashioned Democratic "primary" was held at Cadiz, Trigg county, t'other afternoon. Koehn C. Deffy and Judge Jack T. HANBERY, candidates for the Democratic nomination for Commonwealth's Attorney in the Third Judicial District, had a sensational fistic encounter. DUFFY charged that HANBERY, after losing the nomination in the last Convention, contemplated making an independent race for Attorney. HANBERY branded the statement as an infamous lie. Duffy struck him a stinging blow on the head. As they clinched Hanberr's father, 'Squire Tom Han-BERY, struck Duffy three times on the head with a walking cane. Both candidates were painfully but not seriously elected.

The year is young; yet Louisville has already scored four brutal murders.

THOSE Parsons who threaten to "pray Cincinnati into civic righteonness" need to be educated to the fact that the vote of one rat-row bummer will have more weight at the polls, than all the prayers that can be sandwiched between the two Miamis. Prayers are all right—when the prayists supplement them with work.

On, yes; Philadelphia is a very sleepy old town; but where else on the face of the earth is such an establishment as the Baldwin Locomotive Works, and it is only one of that city's thousands of big manufactories. Its employes number almost twice the entire population of Maysville. But read this-

PHILADELPHIA, January 28.—Six complete locomotives are now turned out daily at the Baldwin Locomotive Works, but even with this supply the demand for motive power by the various great systems cannot be made. John H. Converse, President of the Baldwin Works, says the present condition of affairs is uppre-

'We are working continuously, night and day," he said, "and are turning out on an average one complete locomotive every four hours. The various branches of our plant are rushed with work. The demand for motive power by the railroads does not seem to slacken."

The Baldwin Works employ 13,000 men. The order of the Pennsylvania for 350 locomotives, placed some time ago, is being rapidly filled. For this road the Baldwin Works are delivering seven locomotives every six days, and the Railroad Company is completing a locomotive every two days in its Altoons shops.

Let as have light! The accused innocent should demand it, and the unaccused ga'lty should have it by turned upon them. Youtsey knows all about the crime! and should tell the truth. # Paine's Celery Compound

Mrs. Clark Tells of Her Happy Rescue From Suffering After Failures of Physicians.

Nervons disorders and diseases are on the increase, and women are the chief sufferers. Digestion gives out, there are pains in the head, the tongue is coated, the muscles ache, there is constipation, heart paipitation, gloomy fears oppress continually and sleep Is broken and disturbed.

The only reliable remedy that medical scionce has given to humanity for the enro of nervonsness is Painc's Celery Compound, prescribed by eminent physicians with the happlest results. In critical cases, Paine's Celery Compound has saved life and restored health when all other modicines falled. Mrs. F. A. Clark of Moscow, Idaho, writes as follows about her succoss with Paine's Colery Compound:

"While suffering torribly from nervousness and nervons prostration, I was attended by soveral physicians, but their efforts brought no assuring results. I finally got so had that it was impossible to sleep at night. My husband again wanted me to have a doctor, but I told him it was no use. He then went to onr drugglst who recommonded' Palno's Celery Compound. The first night I used the Compound I slept well and I continued to Improve from day to day. I used in all cight bottles of Palne's Celery Compound and am perfectly cured. I cannot say enough in its favor."

It may seem like idle talk to say much about

At this time of year. There are some few people who think it too early to place an order. But in having your clothes made to measure—"and they really are the only kind that fit and last"-two facts should be considered. One is, that he who takes time by the forelock never gets left; so he who takes advantage of opportunities when presented and selects his goods and places his order for whatsoever he may need in wearing apparel before the season fairly opens is never left. For why? As usual, the good things go first, and he who gets there first is like the proverbial bird—gets the best that's going. The second fact to be considered is, tailors, when the spring is here, are very busy, and in consequence late orders are delayed, which causes annoyances otherwise avoided. Come and look at my line.
